

VERIFICATION OF COMPETENCY FOR A FRONT END LOADER

Some example text and answers are in **red** below. Just delete and uncheck the answer boxes before using.

Company:		Date:	
Assessor's Name:		Nominee's Name:	
Item of Plant:		Model:	

The purpose of this verification of competency is to allow the nominee to demonstrate their understanding and ability to safely operate a front end loader.

This verification of competency consists of two parts. One theoretical assessment and one practical assessment.

THEORETICAL ASSESSMENT

This assessment consists of 10 questions.

A score of 80% is required to successfully complete the theoretical assessment.

Answer the questions carefully and with your own words. Details and clarity.

For multiple choice questions, check the box that has the **best** correct answer.

Question 1

What are some safety measures you should take before operating a front end loader?

Before operating a front end loader, you should conduct a pre-operation inspection and make sure the operator seat is properly adjusted and the seat belt is worn.

Question 2

Why is it important to ensure the front end loader is inspected and maintained?

Ensuring the front end loader is inspected and maintained is important for maintaining its performance and preventing any issues that could lead to accidents.

Question 3

What should you do if you encounter an obstacle or debris while operating a front end loader?

If you encounter an obstacle or debris while operating a front end loader, you should come to a stop and assess the situation before proceeding.

Question 4.

What should you do if you notice an issue with the front end loader during operation?

If you notice any issues with the front end loader during operation, you should stop the machine immediately and notify a supervisor or maintenance personnel.

Question 5.

What are some common hazards associated with operating a front end loader?

[The following text is a blurred preview of the document content, including questions and answers related to front-end loader safety.]

How do you safely load and unload a loader from a truck or trailer?

To safely load and unload a loader from a truck or trailer, use a loading dock or a ramp with the appropriate weight capacity and securing pins in place. Make sure the loader is centred and avoid sudden stops or turns while driving on the ramp.

Question 14.

What should you do if you encounter uneven terrain while operating a front end loader?

If you encounter uneven terrain while operating a front end loader, you should slow down and keep the bucket low to the ground to maintain stability.

SAMPLE

ORDER NOW AND GET FULL ACCESS

How would you learn the capabilities and limitations of the front end loader?

Refer to the operator's manual.

Question 15

What should you do if you encounter a steep slope or incline while operating a front end loader?

If you encounter a steep slope or incline while operating a front end loader, you should approach the slope at a slow, steady speed and maintain your centre of gravity by keeping the bucket low to the ground.

Question 16

Why is it dangerous to drive along the high side of a trench?

The weight of the loader may cause the loader to tip backwards and/or the trench to collapse.

Question 17

What should be done to the side of a front end loader to prevent the operator from being struck or crushed by an unbalanced machine?

Install a safety bar.

SECTION TWO – PRACTICAL ASSESSMENT (Assessor to Complete)		Competent?		
1.	The nominee knows how to conduct a thorough pre-start on the loader and how to report any defects?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
2.	The nominee is aware of the maintenance and servicing schedule of the loader?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
3.	The nominee understands what the levers, switches, buttons and functions control?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
4.	The nominee is competent with the operation of bucket	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
5.	Does the nominee know the importance of safe work procedures?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
6.	The nominee is aware of the limitations of the loader and is able to identify pedestrian and energy sources.	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
7.	The nominee knows how to change gear and the operating area if required?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
8.	The nominee is aware of how to park and secure the loader in a safe location at the end of the working day?	<input type="checkbox"/> Yes	<input type="checkbox"/> No	<input type="checkbox"/> N/A
